

**Press and customer information  
January 2008**

**Tschudi Lines Baltic Sea add new port to its  
schedule**

We are pleased to announce, that we, from February 1, 2008, will start calling Klaipeda Port, Lithuania on a weekly basis with our Finbest service.

With a Friday afternoon call in Klaipeda, we can, as the only operator, connect our customers directly to Felixstowe (Monday morning arrival) and we can also offer the fastest transit time to Antwerp (Tuesday arrival). Via transshipment we can offer services to Ireland, Italy and Norway. With this Klaipeda call we can also offer fast inbound transports to Klaipeda from Helsinki, Muuga and Rotterdam.

Our services includes port to port shipments, as well as door to door services, with our own equipment, that include 40' and 45' PWHC containers as well as all standard container sizes.

We hope that this new service will enable our customers to enter into new markets by using the environmentally sound container short sea mode.

Attached please find the new schedule with Klaipeda contact details. If you have any questions please contact your local Tschudi Lines agents or the undersigned.

We look forward to a continued good cooperation.

Regards

Tschudi Lines Baltic Sea AS
